Abenteuer Partner to Complete New Dual Leg Steelman HZ Well

VANCOUVER, BC – Abenteuer Resources Corp. (“Abenteuer”) is pleased to announce that CanEra Energy Corp. (“CanEra”), a private petroleum exploration and development company based in Calgary, AB, has drilled a new dual legged horizontal well at 7-18-004-06W2 on its Kingsford Property in SE Saskatchewan. The dual legged well was drilled to a kick off point (“KOP”) at 1,187 metres and the intermediate casing point was at a measured depth (“MD”) of 1,660 metres. The first leg was drilled to a MD of 2,233 metres targeting the Midale Marly M3 zone. In total, CanEra encountered 335 metres of reservoir with oil staining throughout and gas units peaked at over 1,000 units at the heel. The second leg was drilled to a KOP at 1,675 metres and reached a MD of 2,213 metres to target the Marly M1 zone. In total, CanEra encountered 204 metres of reservoir with oil staining throughout and gas units peaked at close to 1,000 units at the toe.

CanEra, as the operator, reports that both legs have been acidized, and production equipment is currently being installed in order to commence production testing.

Abenteuer maintains a 13% working interest in the well and will update shareholders once the information is available.

On Behalf of the Board,

“J. Lewis Dillman”
